

Here is how it works:

Click on a scanner to select from the models offered in the upper part of the wheel.

When you have selected a scanner, all options available for that scanner model will pop out of the wheel. The scanner model description and a list of included features as well as available options will also be displayed in the inside of the wheel.

Simply select the options you would like to have a quote for from the list inside the wheel. Then click on the link “Request for Quotation” inside the wheel at the bottom.
